SUMMARY

Information Systems undergraduate with a multidisciplinary background in humanities, languages, and the arts. Experienced in translating user insights into functional requirements, building AI-powered solutions and digital platforms in Singapore and Bhutan. Aspires to bridge people, process and product, bringing a human-centered perspective to every decision.

EXPERIENCE

2026

Business Analyst Intern

PebbleRoad Pte Ltd

- Engineered a Contract Lifecycle Management (CLM) workflow by orchestrating AI agents and tool integrations for end-to-end process automation.
- Led stakeholder interviews to uncover process bottlenecks and translate business needs into improved workflows.
- Developed a monitoring dashboard to track workflow performance and identify process bottlenecks, reducing LLM token costs by 30%.
- Delivered a client-facing frontend application by integrating APIs and deploying the solution with Docker.

2025

Teaching Assistant (Management Communication)

Singapore Management University

- Delivered structured feedback to 45 students, helping them improve professional presentation and communication skills.
- Partnered with professor to refine instructional materials and improve efficiency based on student feedback.
- Maintained and updated digital platforms to support smooth delivery of learning materials and class operations.

PROJECTS

2025 - Present

CircleUp – AI Productivity & Team Compatibility Platform

Co-Founder & Co-Developer

- Conducted user interviews and qualitative research to identify collaboration challenges and translate insights into functional requirements.
- Designed MVP workflows and interactive prototypes in Figma, mapping end-to-end user journeys and onboarding flows.
- Conducted A/B testing on interface layouts and onboarding processes to improve usability and user adoption.
- Planned AI-driven roadmap, outlining data inputs and expected outputs for future AI/ML implementation.

2026

URBANIX – AI-Powered Policymaking Support Tool

Hack For Cities 2026 | Top 5 Finalist & Most Feasible Solution Award | Pitched to IMDA Panel

Team Lead, Developer

- Spearheaded development of a decision-support platform within 5 days, coordinating rapid prototyping and agile execution.
- Implemented an AI chatbot to guide users interactively through policy scenarios and outcome simulations.
- Built data visualisations (dashboards, radar charts) to clearly display district-level indicators and policy trade-offs.

2025-2026

GaZom Desserts Website

Lead and Sole Developer, Bhutan

- Led full-stack development of a client-facing website for a local F&B business in Bhutan.
- Worked directly with business stakeholder to gather, clarify and document website requirements through regular feedback sessions.
- Translated business needs into functional site features and supported testing to ensure deliverables were timely met.

SKILLS & INTERESTS

- **Analytics & Insights:** Excel, Tableau, Pandas
- **Automation & Low-Code:** OutSystems, Camunda
- **Programming | Databases:** Python, JavaScript, PHP, HTML, CSS | MySQL, PostgreSQL
- **DevOps:** Kubernetes, Docker, Git, GitHub, AWS, Azure
- **Collaboration & Productivity Tools | Frameworks:** Figma, Jira, Trello | Agile
- **Languages:** English (Native), Chinese (Native), Japanese (Basic), French (Basic)

EDUCATION

2024 - Present

Bachelor of Science, Information Systems

Singapore Management University

- Business Analytics track, second major in Computing Studies (Artificial Intelligence)
- **Module distinctions:** Interaction Design & Prototyping, Business Process Analysis & Solutioning, Computing Fundamentals, Management Communication, Big Questions

2022-2023

A-Level Certificate

Anglo-Chinese Junior College, Arts Stream

- **Distinctions:** H2 Literature in English, H1 General Paper, H1 Project Work

CO-CURRICULAR ACTIVITIES

2024

Experiential Track

SMU Social Impact Catalyst

- Conceptualised and validated a social enterprise through problem discovery, market research and competitive analysis.
- Applied Business Model Canvas and iterative prototyping to deliver a polished venture pitch.

2022-2023

AC Press (School Journalism Club)

Vice President

- Led 9 journalists to cover 15+ major school events, coordinating assignments and editorial standards.
- Spearheaded Methodist Walk coverage, leading club to contribute 1,500km towards fundraising.

2022-2023

Debate & Oratorical Society

Member

- Represented school at regional competitions, emerged as Best Speaker at Asian Online Debating Championships.
- Facilitated debate workshops for primary school students at club's annual Junior Lexis. Worked with peers to teach core debate skills and foster early interest in public speaking.
